***GRANT COURSES - please mail applications to hosting agency indicated.**

This is the 2016-2017 tentative schedules of training courses offered by Law Enforcement Training. If you are interested in attending any of the schools, contact us at (605) 773-3584 and mail applications to Law Enforcement Training, 1302 E. Hwy 14, Pierre, South Dakota 57501 or fax (605) 773-7203. Reservations to attend these courses should be made no later than **45 days** prior to the course.

LAW ENFORCEMENT BASIC CERTIFICATION COURSE

This is a course that all officers are required to attend within 1 year from their hire date. All applicants must submit the 4 page L.E.S. form along with 2 blue FBI Applicant fingerprint cards.

Domestic Violence/Sexual Assault Training: The SD Network against Family Violence and Sexual Assault offers training to law enforcement on responding to domestic violence, sexual assault, and/or stalking calls. This training is FREE! The training is provided by a law enforcement officer, a prosecutor and an advocate. The training team will come to your jurisdiction at NO CHARGE. The only things you have to provide are a place to hold the training and the people. The team does everything else. The training can be customized to meet your time schedule and topic needs. Please contact Jackie Goosen at 605-731-0041 for more information or to set up training.

911 2-WEEK BASIC

This is an 80 hour course that all dispatchers are required to attend within 1 year of their hire date. All applicants must submit the Basic 911 4 page form along with 2 blue FBI Applicant fingerprint cards. To obtain these forms, call (605) 773-3584.

****There will be optional 3 day EMD courses in addition to the 911 2-Week Basic Courses. The following is the schedule and which vendor will provide the training at no cost to the 911 basic students.**

March 13 – 15, 2017 EMD PowerPhone
June 19 – 21, 2017 EMD Priority Dispatch
October 10 – 12, 2017..... EMD PowerPhone

Emergency Medical Dispatch (EMD) Certification Course: EMD will provide communication techniques that will enable the dispatcher to have a direct impact on the successful outcome of a medical emergency and to provide an overview of medically-proven methods of gathering the most pertinent information in the least amount of time, while determining the severity and urgency of the call for medical assistance. And here is the link to the course description on our web site:

<https://www.powerphone.com/dispatchu/emergency-medical-dispatch/>

Priority Dispatch EMD: Advanced EMD training through the IAED will help you master emergency medical dispatching on the front lines. You will learn how to handle difficult callers, identify the correct Chief Complaint, assign needed resources, effectively communicate between responders and callers, and provide life-saving support. This is hands-on training with real-life examples, exciting audiovisual tools, and instructors who have spent years in EMS as dispatchers and responders.

****TERMINAL OPERATOR COURSES**

Every second Tuesday of the month Law Enforcement Training will host a NCIC Limited Access Course in Pierre. This course is 3.5 hours in duration. Course will begin at 10:00 am and finish up after lunch at 2:00 pm. Interested persons must send in the one page Terminal Operator application and two sets of finger print cards. If you are an LEO, finger print cards should be on file in LET, therefore no need to resend. Any questions please call 773-3584.

*3.5 HR Limited access course is required for any person operating or having access to the SDLETS/NLETS/NCIC (teletype) system through a regular or mobile data terminal. This course is designed for those who do limited queries such as driver's licenses or criminal histories.

*24 HR Full access course is required for any persons who have full access to the SDLETS/NLETS/NCIC (teletype) system and do more in-depth queries and entries.

By Federal Law any person who operates a terminal that has access to the NCIC system must be certified. Please forward a Terminal Operator Application, which can be accessed from our web-site, along with 2 sets of finger print cards to Law Enforcement Training.

MAPSCENES DESKTOP TRAINING

Date: November 14-18, 2016
Location: Rapid City

This 40 hour Computer Aided Drafting (CAD) course will introduce students to the new MapScenes IMS 360 software featuring the Intellicad Engine. This course will provide training in CAD functions including linework, dimensioning, layer control, baseline measurement input, and other features necessary to generate accurate professional evidentiary maps.

[Lodging & Meals will be on your own.](#)

ARIDE

Dates/Locations: November 8-9, 2016 Whitewood SD - 911 Thompson St (Firehall) **Deadline 10/25/16**
November 15-16, 2016 Sioux Falls SD - Law Enforcement Center **Deadline 11/1/16**

A.R.I.D.E. (Advanced Roadside Impaired Driving Enforcement) is a training opportunity to learn how drugs impair driving abilities. Students are instructed on indicators along with the signs and symptoms of drug impairment. This class also will assist the officer in processing the drugged driving arrest. ARIDE will train law enforcement officers to observe, identify and articulate, and document the signs of impairment caused by drugs, alcohol, or combination of both. ARIDE is an attempt to offer training in order to reduce the number of impaired driving incidents as well as crashes which result in serious injuries and fatalities. This course is to build on the Standardized Field Sobriety Test practitioner course. In order for the participant to effectively utilize the information presented in this course, NHTSA has set a prerequisite of SFST proficiency. The participant will receive a short review and update for the SFST's. After completing that session, the participant will be required to pass a SFST proficiency evaluation. Failure to successfully complete the SFST proficiency evaluation will result in dismissal from the class. This 16 hour school covers several topics to include: an extensive SFST review to ensure proficiency, Medical Conditions that mimic drug impairment, current drug trends and methods of ingestion. The class will also provide information on the DRE process and how a DRE can complement investigations. ARIDE is a pre-requisite for any officer wishing to attend a DRE school. **Please note application deadline in red. Please send applications to LET. Lodging & meals are on your own.**

1ST LINE SUPERVISOR

Date: November 7-11, 2016

Location: Pierre

This class is currently full; however, we will still accept applications in case of withdrawals.

Maximum number of students is 20. *Note: The last day of this class is Veteran's Day -- there will be training on this day.*

This one-week course is designed for first line supervisors or PTO/FTOs. All of the material in this course was designed by the leadership professionals at The Ken Blanchard Company - www.kenblanchard.com . *Note: This is a hands-on course, therefore, it is designed for those who are already in a supervisor or trainer position; however, soon to be supervisor and trainers can benefit from the training.*

This course is designed for law enforcement/ & public safety professionals (sworn and non-sworn) and uses Situational Leadership II for Law Enforcement as its foundation.

Situational Leadership II (SLII) has been the world's most taught leadership model for more than 30 years. Its foundation lies in teaching leaders to diagnose the needs of an individual or a team and then use the appropriate leadership style to respond to the needs of the person and the situation

Participants will receive lessons and hands-on training on the following modules:

- Building Trust (4 hours)
- Situational Leadership II for Law Enforcement (2 days)
- Listening (4 hours)
- Challenging Conversations (4 hours)
- Providing Feedback (4 hours)
- Goal Setting (4 hours)
- Action Planning (4 hours)

Under South Dakota State administrative rules 2:01:06:17.01 and 2:01:06:17.05, this training serves as Continuing Education hours for commission "approved" firearms instructors.

The facilitator for this course is certified by The Ken Blanchard Company. If you have any questions, email greg.williams@state.sd.us or call 773-2568.

SUPERVISORS ROLE IN MINIMIZING AGENCY & PERSONAL LIABILITY

Date: November 14-15, 2016

Location: Pierre

This course will focus on the police supervisor's responsibility to detect a potentially volatile situation and intervene before a crisis occurs that will likely result in personal and agency liability. We will provide you with appropriate training and skill development that will help limit your exposure to personal – and even organizational – liability in the most difficult of circumstances.

We will discuss how our federal court system has begun to sustain the liability of police supervisors who do little or nothing to prevent a subordinate employee from committing an unconstitutional act. You will learn why it is practically assumed that when police supervisors use excessive force or command a subordinate to participate in an unconstitutional act, both parties can be judged individually liable in civil courts, and in some circumstances, criminal courts. We'll also examine limited instances where a chief or sheriff may not be able to avoid some measure of liability for the actions of a subordinate employee.

Working in small panel groups, you will be required to analyze actual incidents, describing detection and intervention methods that could have been used and confronting ethical and moral conflicts brought forth from these events.

Topics include:

- What is supervisory liability
- Why supervisors find themselves in court
- Discussion of first line liability
- Prominent theories of liability
- The supervisor's role in promoting integrity and ethical values
- The supervisor's role in review of excessive force and false arrest claims

Audience: Law enforcement and public safety civilian and sworn line supervisors, mid-level managers and administrators with oversight responsibility

About the instructor: Joel D. Cantor, Esquire, has practiced law in the State of Florida for more than 3 decades. He began his career as a Prosecutor in the Broward County State Attorney's Office and later served as In-House Counsel for the City of Hollywood, Florida Police Department, specializing in Public Sector Discipline and Labor Arbitration, Forfeiture Litigation, defense of Federal '1983' and Civil Rights actions. He retired in 2013 and was immediately selected to serve as the Director of

Professional Standards for the Broward County Sheriff's Office, where he supervised the disciplinary process and various labor matters. Mr. Cantor has also provided specialized training in topics including Line Supervision, Ethics and Professional Integrity and Avoiding Liability and Claims of Discrimination.

STRATEGIES FOR THE RECORDED INTERVIEW

Location: Pierre, SD
Date: November 16 & 17, 2016
Time: 8:00AM to 5:00PM

The goal of this course is to give law enforcement officers a new perspective on interviewing concepts and techniques that includes the added dimension of electronic recordings. It will give an introduction to a new and effective technique for interviewing the sophisticated suspect, and an orientation to the use of electronic recordings during interviews. The course objectives will be to demonstrate a thorough understanding of basic techniques and guidelines for conducting recorded interviews, elements of the "RIP Technique" and how the "RIP Technique" works. This course is recommended for experienced officers/investigators who want to learn how to adapt their existing interview skills to a recording environment, require an investigative edge during recorded interviews of witnesses and suspects, and are looking for more sophisticated techniques and more consistently effective interview results. The course will be taught by Neil Nelson & Associates.

Neil Nelson is a 33-year veteran of the St. Paul (Minnesota) Police Department. Commander (Rtrd.) Nelson has 18 years of supervisory and investigative experience in the areas of narcotics and homicide and is the recipient of the St. Paul Police Department's Medal of Merit for his contributions to the investigative work that led to the convictions of four suspects in the slaying of a Wisconsin man.

Mr. Nelson is the principal of Neil Nelson & Associates, a law enforcement training firm founded in 1998 and based in Roseville, MN. His "RIP (Rapport, Investment, Partnership) Technique" and electronically recorded interview strategies have received national recognition, and he has taught classes on these topics to public and private agencies in states including, but not limited to, Florida, Illinois, Maryland, Minnesota, New Jersey, New York, South Dakota, Texas, and Wisconsin. He has also co-created trial preparation course materials and conducted training sessions on anticipating defenses, admissible statements, use of records, and developing witnesses.

COOPER INSTITUTE LAW ENFORCEMENT FITNESS SPECIALIST AND LAW AND FIRE INJURY PREVENTION

Date: December 5-9, 2016
Location: Pierre, SD

The law enforcement profession increasingly uses physical fitness as a performance measure. The professional must understand fitness assessments and standards, absolute cut point fitness scores and referencing normative data. Using fitness testing scores is critical as a qualifying factor in the hiring process.

Two classes in one week: *The 4 1/2 day Law Enforcement Fitness Specialist course is designed specifically for the law enforcement and public safety professional who are involved in developing and delivering physical fitness programs in their department.*

The 1/2 day Law and Fire Injury Prevention workshop teaches these professionals to identify common job-related injuries in first responders and provides information on how to develop appropriate injury prevention programs. Gain the skills to select and teach strengthening, flexibility and balance exercises that target weak links that can lead to injury. Learn why a strong core is an important key to injury prevention and optimal execution of specific work-related tasks. Discover why core exercises like crunches are not enough to prevent injury. Practice the exercises and gain valuable teaching tips in hands-on breakout sessions.

Topics for Law Enforcement Fitness Specialist: ●Fitness and Wellness ●Coronary Risk Factors ●Medical Screening ●Exercise and Safety ●Anatomy and Kinesiology ●Body Composition (Skinfold method) ●Fitness Assessment for Law Enforcement/Public Safety ●Exercise Physiology ●Goal Setting ●Exercise Safety ●Strength Training and Prescription ●Flexibility Training and Prescription ●Cardiovascular Training and Prescription ●Nutrition ●Motivation and Adherence ●Physical Fitness Testing in Law Enforcement/Public Safety ●Physical Fitness Standards in Law Enforcement/Public Safety

Topics for Law and Fire Injury Prevention: ●Low Back Disorders ●Weak Core Muscles ●Shoulder Concerns ●Knee Problems ●Muscle Imbalances ●Flexibility Issues

CPR is required for the Law Enforcement Fitness Specialist course but not for Law and Fire Injury Prevention course. The Fitness Specialist is a hands-on course. Be prepared to participate in fitness assessments.

The Law Enforcement Fitness Specialist course is a curriculum-based testing course. Students who complete the course and pass both the written and practical exams receive a Cooper Institute Certificate. The Law and Fire Injury Prevention course does not include an examination. Students who complete the course receive a Cooper Institute Certificate of Participation.

These courses are taught by the Cooper Institute from Dallas Texas and hosted by Law Enforcement Training. Meals and lodging will be provided at LET. For further information or to register for the course, contact LET at (605)773-3584.

FAIR & IMPARTIAL POLICING TRAIN-THE-TRAINER

Date: December 13 – 15, 2016
Location: Pierre

*Note: Interested agencies must send at least two officers/deputies to this training, since all curriculum are team taught. **Whom should you select?** Select diverse individuals who are strong trainers and respected by their peers; be sure you have enough individuals with suitable rank to train the first-line supervisors. These individuals should have strong facilitation skills and success with facilitating tough discussions.*

Training-of-Trainers (TOT) Program The Fair and Impartial Policing TOT Program allows teams of trainers, from academies and other law enforcement training organizations, to learn to implement both the recruit/patrol officers' and first-line supervisors' curricula. The TOT is a 2.5-day program and consists of:

- The modeling of both curricula by the designers and principal instructors of the curricula
- Instructor "side-bars," throughout the program, which describe the rationale for the specific training resources and methodologies for effective instruction
- Small group technical assistance workshops to "drill down" on content and instructional techniques.
- Teach-back, by participants with coaching by the instructional team.

At the conclusion of the TOT, trainers are able to:

- Understand and effectively communicate the science of implicit bias and the fact that it can impact on what we perceive/see and can (unless prevented) impact on what we do; ?
- Understand and communicate that fair and impartial policing leads to effective policing; and ?
- Use the Fair and Impartial Policing Training curricula to teach academy recruits/patrol officers and first-line supervisors to (1) recognize their conscious and implicit biases; (2) implement "controlled" (unbiased) behavioral responses; and (3) promote fair and impartial policing in their daily work.

Participants receive both the recruit/patrol officers' and the first-line supervisors' curricula, including comprehensive lesson plans, trainers' guide, and Power Point presentations to implement these two training programs.

ADVANCED CRASH INVESTIGATION

Date: January 2 – 6, 2017
Location: Pierre

This 40 hour course deals heavily in the dynamics and physics of vehicle crashes. Extensive work is done with crash formulae. Also included is a brief overview of motorcycle crashes, motor carrier crashes, and head light and tail light examination. This course is open to officers who have completed the 13 week basic accident course and who possess a working knowledge of mathematics. This course is a pre-requisite for taking the Crash reconstruction course. Lodging & meals provided at LET.

CRISIS COMMUNICATIONS: MANAGING A CRITICAL INCIDENT FOR PUBLIC SAFETY DISPATCHERS

Date: February 8 & 9, 2017
Location: Pierre, SD

Managing a critical incident, whether caused by acts of nature, an active shooter or a major accident, the public safety dispatcher must be mentally prepared to handle the incident effectively. The public safety dispatcher is the first responder on the scene. In a critical incident the caller (some incidents the dispatcher and responder), is under extreme physiological distress in the form of anxiety. The caller is experiencing sensory overload in which the five senses collapse and the caller is in a confused state. As a result, the caller is experiencing constricted thinking, unable to see the obvious solution. The caller is focused on survival while the dispatcher is focused on information. The student will understand the caller usually knows what happened or occurred. The dispatcher needs to understand the caller does not know what information the dispatcher needs. Because dispatchers are rarely exposed to a critical incident, when one occurs, the dispatcher is immersed into an immediate time compressed incident demanding quick decision-making and resource allocation. Managing a critical incident is a perishable skill and the dispatcher training should include stress inoculation.

***DRE SCHOOL**

Date: January 16-20 & 23-27, 2017
Location: Aberdeen, AmericInn

A drug recognition expert or drug recognition evaluator (DRE) is a police officer trained to recognize impairment in drivers under the influence of drugs other than, or in addition to, alcohol. [The International Association of Chiefs of Police \(IACP\)](#) coordinates the International Drug Evaluation and Classification (DEC) Program with support from the National Highway

Traffic Safety Administration (NHTSA) of the U.S. Department of Transportation. The Los Angeles Police Department (LAPD) originated the program in the early 1970s. Back then LAPD officers noticed that many of the individuals arrested for driving under the influence (DUI) had very low or zero alcohol concentrations. The officers reasonably suspected that the arrestees were under the influence of drugs, but lacked the knowledge and skills to support their suspicions. In response, two LAPD sergeants collaborated with various medical doctors, research psychologists, and other medical professionals to develop a simple, standardized procedure for recognizing drug influence and impairment. Their efforts culminated in the development of a multi-step protocol and the first DRE program. This 112 hour course is broke down into 3 phases of training:

Phase One: The 16-hour DRE Pre-school, which includes an overview of the DRE evaluation procedures, the seven drug categories, eye examinations and proficiency in conducting the SFSTs.

Phase Two: The 56-hour DRE School which includes an overview of the drug evaluation procedures, expanded sessions on each drug category, drug combinations, and examination of vital signs, case preparation, courtroom testimony, and Curriculum Vitae (C.V.) preparation. At the conclusion of the 7-days of training, the officer must successfully complete a written examination before moving to the third and final phase of training.

Phase Three: During this phase the candidate DRE must complete a minimum of 12 drug evaluations under the supervision of a trained DRE instructor. Of those 12 evaluations, the officer must identify an individual under the influence of at least three of the seven drug categories and obtain a minimum 75% toxicological corroboration rate. The office must then pass a final knowledge examination and be approved by two DRE instructors before being certified as a certified DRE.

Officers wishing to be considered for DRE school, must attend one of the three A.R.I.D.E schools being offered in October and November of 2016. The course is an academically challenging school and officers will be required to maintain a satisfactory grade in order to continue through all phases of training. ***A South Dakota DRE application is required and can be obtained by contacting Rick Olauson (Rick.Olauson@state.sd.us) 605-626-7816. Applications must be received by December 1, 2016.***

INSTRUCTOR DEVELOPMENT

Date: January 30 – February 3, 2017
Location: Pierre
Lodging & meals provided

This is an interactive course designed to prepare individuals to determine training needs, and then develop, implement, and evaluate meaningful training for their department. Attendees learn the key to effective training is to focus on their trainees and prepare to meet those needs. Pre-class articles and a journal will be provided to students before the class. Students will produce two final projects. The first project will be a non-Law Enforcement topic lesson plan and presentation. The second project will be a Law Enforcement topic lesson plan prepared to the same standards as the first project, developed by student groups and furnished to all students on completion. The concept for the second project is to make law enforcement lesson plans available to more officers and increase agencies ability to develop their own lesson plans. Instructor is Gerri Eide.

HUMAN FACTORS FOR THE TRAFFIC CRASH INVESTIGATOR

Date: April 3 – 7, 2017
Location: Pierre

This 40 hour IPTM course will introduce students to a variety of human factors that are critical to the success of reconstructing traffic crashes. While many crash investigation courses focus on the interpretation of physical evidence to determine “how” a collision occurred, this course will examine human factors to determine “why” a collision occurred. Students must have completed, at a minimum, IPTM’s At-Scene Traffic Crash/Traffic Homicide Investigation course or its equivalent.
